

U.S. COIN RING SIZING GUIDE

For the most accurate sizing, please check with your local jewelry or department store. Otherwise, please ensure that this PDF is printed at 100%, and choose your method below.

METHOD 1 - String Test

Using a small piece of string or ribbon...
 Wrap it snugly around your finger to get your measurement.
 Compare your measurement with the ring circumference chart to the right.
** Be careful not to wrap the string too tightly, just snug.*

METHOD 2 - Paper Strip Test

Print this sheet at 100% and carefully cut out the paper ring sizer on the left.
 Wrap the paper band around your finger, using the Read Size Here line to locate your size.
** Be careful not to wrap the paper too tightly, just snug.*

METHOD 3 - Ring Size Chart

Print this sheet at 100% and refer to the chart of inside diameter ring size circles below.
 Using a ring that you wear now, compare to the circles to find the correct size.
** Make sure the ring your testing fits the same finger you're wanting to wear your new ring on.*

US Size Circumference			
.5	37.8 mm	8.5	57.8 mm
1	39.0 mm	9	59.1 mm
1.5	40.2 mm	9.5	60.3 mm
